

We are challenging the traditional rules of pizza, thus using baker's techniques and creating leavened products of different shapes and structures. Our "contemporary pizza" is the result of the perfect union between fresh raw materials and a leavened base. The balance between the topping and the base is crucial, which is why our contemporary pizzas are so different from one other.

## NUVOLA DI GRANO

Soft, high, bulky dough. Made from type 1 stoneground flour, using the *biga* technique with 18/20 hour fermentation, to enhance the crispness on the outside and softness on the inside. Especially recommended for sharing.

# LA TONDA ROMANA

A type of dough reminiscent of the classic Pala Romana (Roman Pizza), with a high degree of hydration, made from type 1 stoneground and whole wheat flours. A massive long fermentation gives the pizza a final fragrant and crunchy texture. Our version is served round, cut in 8 slices.

## TONDA, NO ADDED YEASTS (AVAILABLE FROM FRIDAY TO MONDAY)

An ancient kneading technique called *starch hydrolysis*, which involves spontaneous fermentation without the addition of any yeast leads to a magnificent result: a well-defined taste, intense scent of wheat and a surprisingly voluminous crust. The pizza is served in 6 slices.

# ROCO'S PIZZA

This is the pizza we have been identified with for over 25 years, baked in a pan in a wood-fired oven and served by the slice. Dough is made with soft wheat "00" flour and natural leavening is where the magic happens. The long maturation process gives it a soft but at the same time fragrant structure. For Roco's pizza's lover we offer three timeless flavours, served by the slice.

# DOUBLE TRANCH

Dough is similar to Tonda Romana, but processing is different. It is a reinterpretation of the traditional stuffed Roman focaccia, with a double bread layer that is crispy on the outside but soft on the inside, so that crunching is enhanced! It is served in 4 slices.
